## Dear friends!

From the moment of creation until today Kyokushin World Union has been committed to a noble and unselfish mission – uniting Kyokushin Family Worldwide! Reaching this goal is a highest honour for us!

This year our country will invite the best fighters of the planet from all continents and from all federations for participation in the Kyokushin Karate World Championship for the first time! We will introduce beauty of Khabarovsk Krai with its' wildlife to the world and we decided to arrange championship itself not in a way many fighters and audience are used to see it during many years. We decided to change the history! To crush habitual images of international competitions! We can say with confidence and pride that such level and format of Kyokushin Championship is arranged for the first time in the world, independently from holding organisation, country or federation.

In order to organise such greatest event in Kyokushin World, we have invited a producer, who has such projects behind his back as NOTRE DAME DE PARIS THE MUSICAL, SCORPIONS SYMPHONIC TOUR, ENNIO MORRICONE 85-ANNIVERSARY, EMIR KUSTURICA & GORAN BREGOVIC LIVE CONCERT IN KREMLIN PALACE and other shows famous by their entertainment. We are proud that producer of our Championship Artur Shachnev was head of Tver Kyokushin Karate federation in the past.

**See you in Khabarovsk on October 3-4!**

General Secretary of Kyokushin World Union  
Sergey Suvorov

"I have never been a good fighter, there are many reasons for that, none of which I accept! However I became a man who has already created multiple successful greatest international shows, some of which have changed the history of our country! For me Kyokushin Karate still remains and surely will remain not for one life a big and an absolute world that like a book of life has described all values, secrets and principles of right spiritual and moral way! The main thing is to learn to read it and with time to begin understanding of this book's language, and further to follow and follow its' endless pages on the way to an absolute truth! To create a unique, held for the first time in such format tournament is a great honour that was passed to me by my associates! And I will joyfully give all myself, my knowledge and experience and skills in world of big shows in order to implement this art to arrangement of Kyokushin World Championship! We are glad that people whose beliefs and goals are noble and great, will with our hands start a new beginning of the united history of Kyokushin! It is time to be united! Osu!"

General Producer of Kyokushin Karate World Championship  
Artur Shachnev
